Bring your dog to work day 2017

As we all know bringing your dog do work can be hugely beneficial for employee morale. Above all, it's a great way to get a warm hello every day! So we thought it's time to give our beloved pooches a job.

So here is some photo's of our pooches at work!

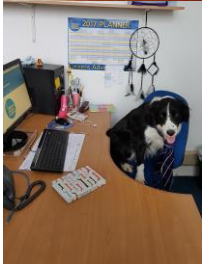

Harley – Environmental Resources Manager

Harley's most recent achievement has been the 'shredding for bedding' project, thanks to Harley's influence the bureau donates all shredding to the Scottish SPCA.

Pixabella – Financial Accountant

It's not an easy job looking after the CAB pennies, but Pixabella does it so well she can always afford some tasty nibbles.

Max – Strategic Events Planner

Max has done another great job in planning yet another event...it was about time one was all about him and his buddies!

Harry – Fire Safety Officer

He doesn't have much of a bite but his bark sure is enough to make our alarm system redundant.

Apollo – Maintenance Engineer

No matter the job big or small, as long as there's a treat in it he will fix it all.
