

Children and Young People Improvement Collaborative – Improvement Training for Leaders and Coaches for Improvement

We are delighted to share this excellent opportunity for improvement training with you and ask that you disseminate information to your committed and developing improvement leader colleagues, who are working hard to drive improvement within children's services.

The CYPIC programme has secured a number of protected places on this programme and we would like you to consider this as part of your commitment to build capacity for improvement and to support delivery of your local improvement priorities.

We are aware that many local partnership teams are working hard to develop improvement capacity within the workforce and are eager to develop local expertise in improvement methods. This Leading and Coaching for Improvement Programme offers an excellent development opportunity for those leading teams and influencing project activity within the organisation.

This is the first of two cohorts that will take place over the next six months and further information about the second cohort will be shared later this year.

**Please note that the application process is open until 15<sup>th</sup> September. Applicants should be aware that they must be able to commit to attend both residential meetings and participate in additional online meetings during the course of the programme.**
